PROJECTS

Fair Space

Mar. 2020

Demo: <https://fairspace.herokuapp.com>

A full-stack apartment listing web app offering renters access to information on available units for rent posted directly by landlords themselves.

- Developed with React, NodeJS, Express, MongoDB, Firebase, SASS, & GreenSock
- Integrated the latitude and longitude from Rent Estimate into Google Maps to have the same exact results from both APIs.
- Built the authentication features and contributed to the UI.

Dev Seek

Jan. 2020

Demo: <https://devseek.herokuapp.com>

A Full Stack duel application that allows job seekers to search and apply for web development jobs all over the country depending on their search parameters and allows potential employers to post any web development openings they wish to fill.

- Developed with HTML, CSS, Bootstrap, JavaScript, jQuery, NodeJS, Express, Moment.js, & MySQL
- Built an algorithm when searching for specific keywords ending with 'engineer' and 'developer' will display all the jobs available.
- Established a mobile responsive design, contributed to the UI, and RESTful API.

Hangry

Oct. 2019

Demo: kalmontee.github.io/Balletime

Frontend App that lets users find a restaurant in three easy steps using Google Maps and Zomato APIs.

- Developed with HTML, CSS, JavaScript, Bootstrap, & jQuery
- Attained fetching all the data from Zomato API and contributed to implementing it with Google Maps.

EMPLOYMENT

YWCA of Syracuse & Onondaga County Inc.

Syracuse, New York
13202
